**IT &  
Business  
Enabler.**

We are  
Inventions Technologies

# We are IT.

Founded in 2010, Inventions Technologies specializes in delivering top-notch IT solutions for companies. Recognizing the widespread demand for comprehensive IT solutions, we've positioned ourselves as the go-to specialist for all IT needs through modern technologies.

We help clients succeed through IT transformation and exceptional customer experiences. That's our purpose. The reason we exist.

# Services Offered.

## **Datacenter Infrastructure**

---

At Inventions Technologies, we specialize in comprehensive data center and infrastructure solutions tailored to meet the evolving needs of modern businesses. Our suite of services is designed to optimize, secure, and streamline your data operations, ensuring unparalleled reliability and performance.

## **Network and Security**

---

We understand that a robust and secure network is the backbone of modern business operations. Our comprehensive network and security services are crafted to provide seamless connectivity and protect your digital assets against evolving threats.

## **Software Development**

---

We are passionate about crafting innovative software solutions that drive business growth and efficiency. Our software development services are tailored to meet the unique needs of our clients, leveraging cutting-edge technologies and industry best practices.

## **Business Outsourcing**

---

Our commitment lies in being your dependable partner, delivering scalable, cost-efficient, and precisely tailored outsourcing solutions. Let us handle the operational intricacies while you focus on steering your business towards growth and success.

# Services Offered.

## **Unified Communication and Audio Visual**

---

We leverage innovative technologies to create unified communication environments and immersive audio-visual experiences that foster collaboration and drive business growth, no matter where your teams are located.

## **Equipment Maintenance and Technical Support**

---

We specialize in providing comprehensive equipment maintenance and top-tier technical support, ensuring the uninterrupted functionality of your critical assets and smooth operations for your business.

## Leasing and Selling of ICT Products

---

We offer flexible options for both leasing and sales of cutting-edge ICT products, providing tailored solutions to meet your technological needs while ensuring cost-effectiveness and seamless integration.

# Tailored Solutions.

A key driver of Inventions Technologies' success lies in our ability to design business processes that seamlessly integrate with and enhance our clients' operations, effectively becoming an extension of their businesses. We establish comprehensive relationship agreements, enabling us to implement a closed-loop management process that covers every aspect of our client's business and the services we provide.

Aligning with the ITIL v3 model, our robust management processes encompass Assets, Change, Release, Problem, and Incident management. This alignment, both in Service Delivery and Service Support, ensures a distinctive and consistently positive customer experience. Our tightly defined service level agreements (SLA) guarantee exceptional outcomes in capacity management and business continuity management, setting us apart in delivering unparalleled value.

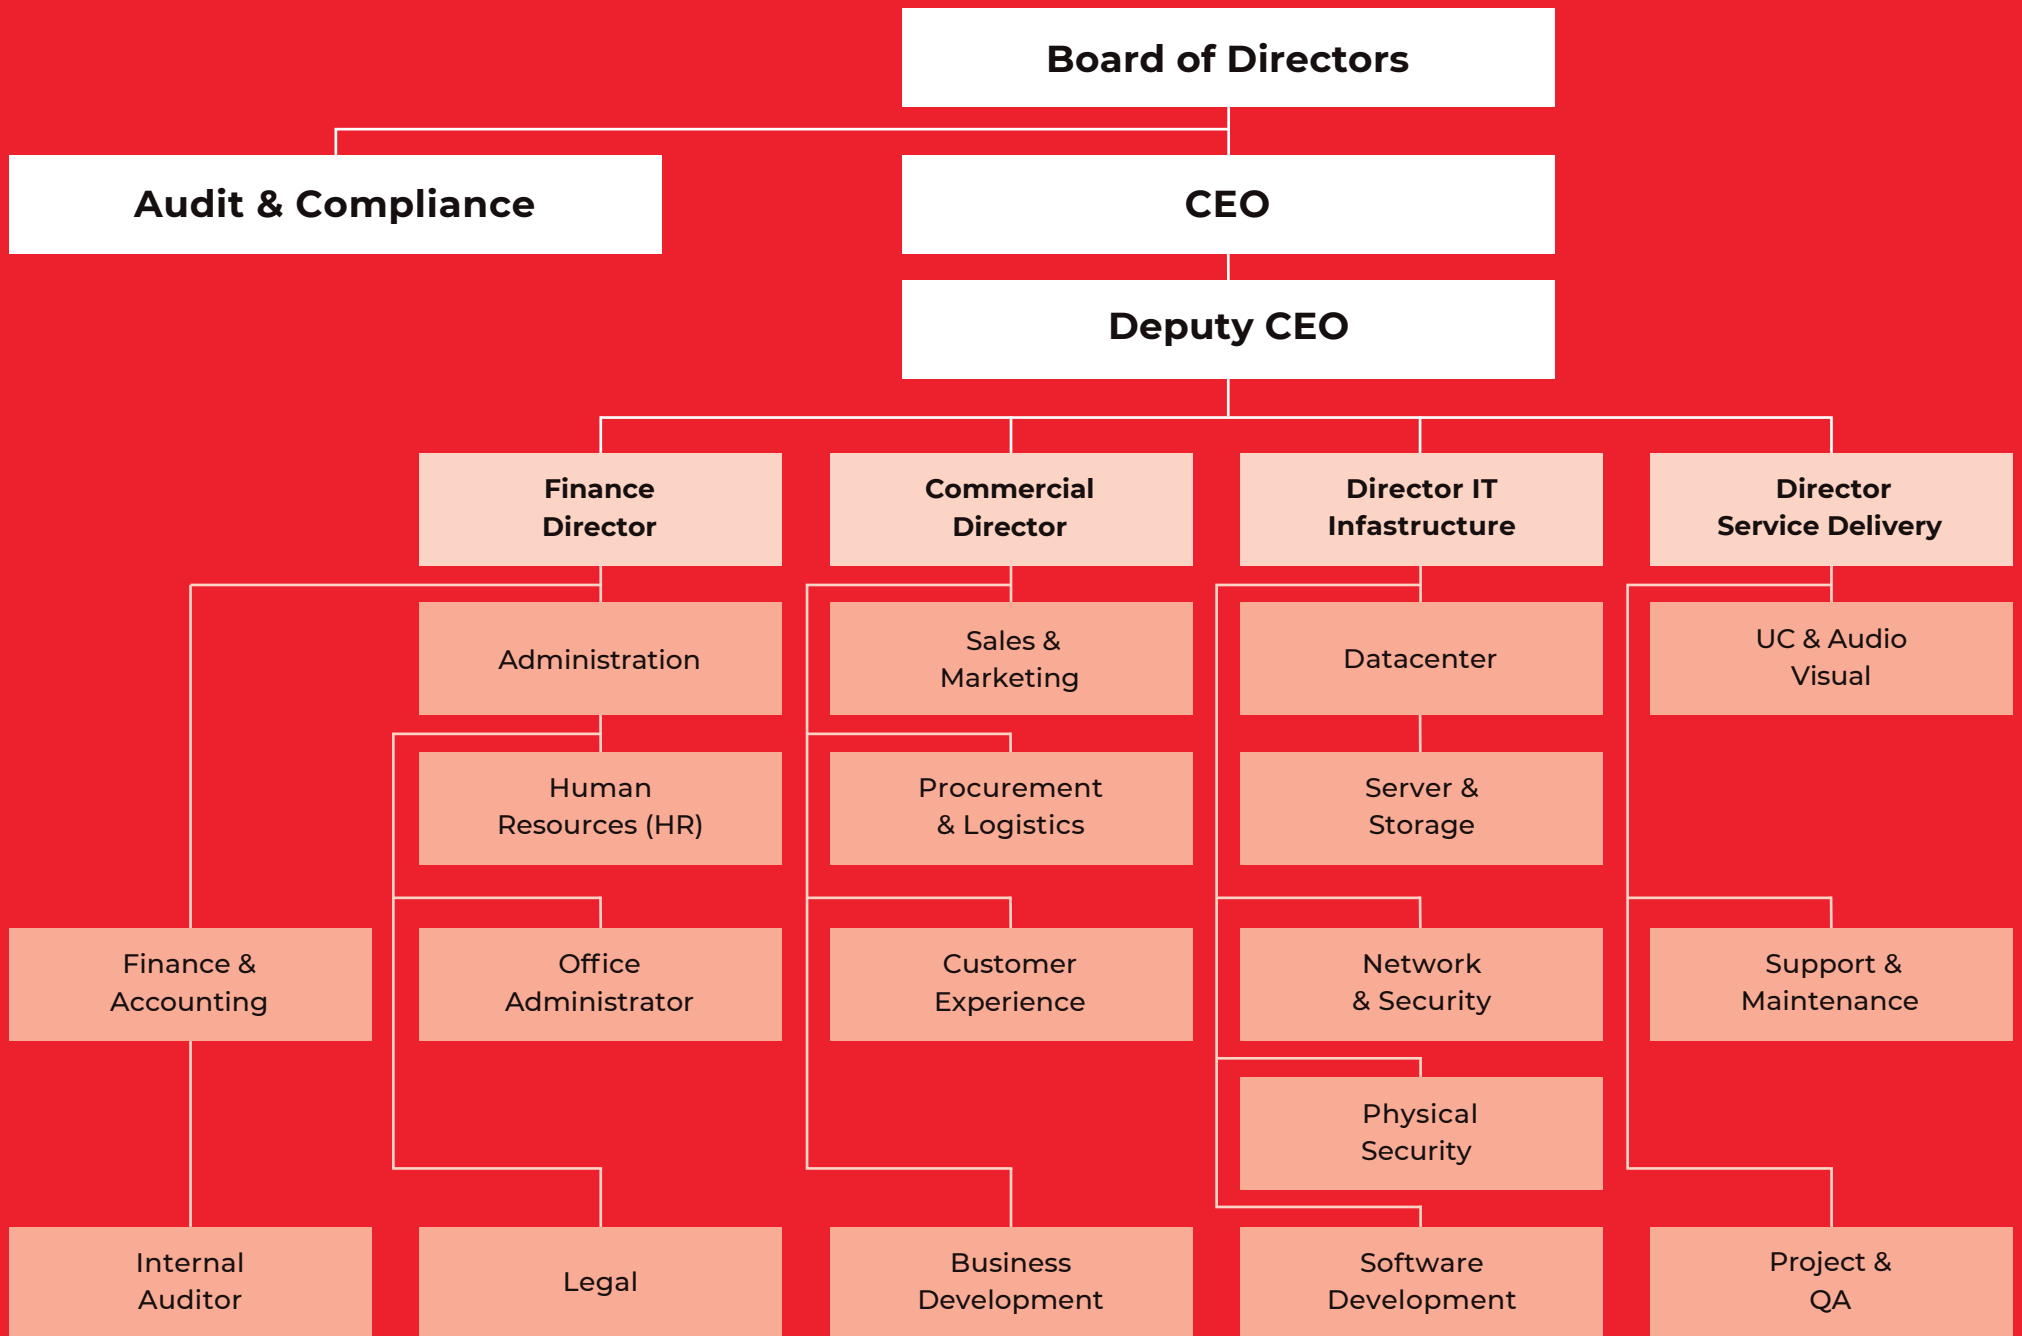

43. NEW IDEAS  
It's not just about  
the product you  
sell, but about  
the way you sell it and a  
creative  
strategy.

89. SUCCESS  
Order of execution  
is critical to  
success. It's not  
enough to have  
a great idea or  
a great team of  
people. You need  
to execute it  
well. It's about  
the details, the  
process, the  
execution of the  
idea. It's about  
the ability to  
execute the  
idea.
